SEMI-ANNUAL REPORT

SMITH GROUP LARGE CAP CORE GROWTH FUND

Dear Investor,

For the six month period ended March 31, 2018, the first half of the fiscal year, the Smith Group Large Cap Core Growth Fund's return on a net asset value basis was 6.64% for the Institutional Class shares, and 6.72% for the Investor Class shares. These returns included dividends of \$1.34 per share for the Institutional Class and dividends of \$1.33 per share for the Investor Class. This result was better than the performance of the broader market as the S&P 500[®] Index posted a return of 5.84% for the same period.

The Fund's solid performance for the period reflected better economic data being appreciated by the market. The Fund outperformed for the first quarter of the new fiscal year as strong earnings growth was built on better revenue trends. The second quarter's market performance ended flat, however, as the policy proposals of the new administration started to engender some fear. While economic data continued to improve showing signs of a synchronized global expansion, worries that an economy growing too fast would lead to rising interest rates gave some investors pause. Also, signals of a potential trade war scared investors that the growth potential from favorable tax-policy would be short-lived.

Most of the Fund's outperformance relative to the benchmark during the period was supplied by the Information Technology and Industrials sectors. In Information Technology, positive moves by shares of Adobe Systems, Inc. and NetApp, Inc. helped the Fund. Adobe Systems, Inc., a software company with applications for creation and delivery of content generated solid revenues and earnings. The stock responded favorably with a 45% move during the period. NetApp, Inc., a systems and software provider enabling enterprises to more effectively store and access data, continued to respond favorably to strong revenue and earnings trends. Its shares gained 43% during the six-month period. In the Industrials sector, the Fund's positions in aircraft manufacturer Boeing Co. and military shipbuilder Huntington Ingalls Industries, Inc. provided significant returns, gaining 30% and 15%, respectively, for the period.

On the negative side, the Fund's holdings in the Health Care and Consumer Discretionary sectors were laggards. In Health Care, disappointing late-stage trial results for a key pipeline product weighed on biotechnology-company Celgene, causing the stock to decline 29% during the period. In Consumer Discretionary, the retailers continued to struggle as consumer spending patterns changed. The Fund's position in department store company Nordstrom was no exception and the stock declined 10% before it was sold in November. A larger negative impact came from not owning Netflix and Amazon, however, with those stocks gaining 63% and 51%, respectively, during the period.

We are pleased with the Fund's performance relative to the benchmark during the first six months of the fiscal year as the holdings responded favorably to good results. Seeing investors reward companies that deliver results in excess of expectations fits well with the Smith Group Asset Management investment process. The environment of continued economic growth should provide a solid foundation for strong business performance of the companies in the Fund going forward. We continue to believe our focus on high quality companies where earnings can exceed market expectations is key to generating excess returns over the long term. Thank you for placing your trust in Smith Group Asset Management. As always, we appreciate the opportunity to serve your investment needs.

Past performance is not a guarantee of future results.

This report must be preceded or accompanied by a prospectus.

Mutual fund investing involves risk. Principal loss is possible. Investors expect growth companies to increase their earnings at a certain rate that is generally higher than the rate expected for non-growth companies. If a growth company does not meet these expectations, the price of its stock may decline significantly, even if it has increased earnings.

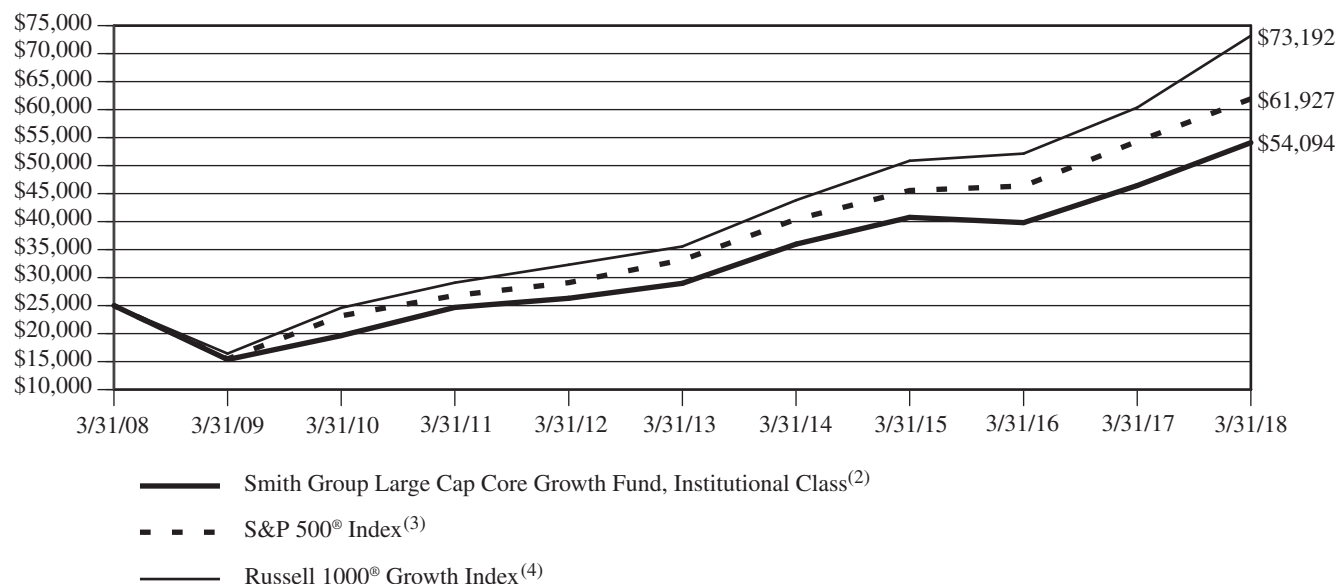

Fund holdings and sector allocations are subject to change and should not be considered a recommendation to buy or sell any security. For a complete list of fund holdings, please refer to the Schedule of Investments section of this report.

The **S&P 500® Index** is a stock market index based on the market capitalizations of 500 large companies having common stock listed on the NYSE or NASDAQ. It is not possible to invest directly in an index.

Value of \$25,000 Investment (UNAUDITED)

The chart assumes an initial investment of \$25,000. Performance reflects waivers of fee and operating expenses in effect. In the absence of such waivers, total return would be reduced. Past performance is not predictive of future performance. Investment return and principal value will fluctuate, so that your shares, when redeemed may be worth more or less than their original cost. Performance assumes the reinvestment of capital gains and income distributions. The performance does not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

EXPENSE EXAMPLE (UNAUDITED) MARCH 31, 2018

As a shareholder of the Fund, you incur ongoing costs, including management fees; distribution and/or service (12b-1) fees; and other Fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period (October 1, 2017 – March 31, 2018).

ACTUAL EXPENSES

The first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expense that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled “Expenses Paid During Period” to estimate the expenses you paid on your account during this period.

HYPOTHETICAL EXAMPLE FOR COMPARISON PURPOSES

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if transactional costs were included, your costs may have been higher.

	<u>Beginning Account Value (10/1/2017)</u>	<u>Ending Account Value (3/31/2018)</u>	<u>Expenses Paid During Period⁽¹⁾ (10/1/2017 to 3/31/2018)</u>
Investor Class Actual ⁽²⁾	\$1,000.00	\$1,067.20	\$5.36
Investor Class Hypothetical (5% return before expenses)	\$1,000.00	\$1,019.75	\$5.24
Institutional Class Actual ⁽²⁾	\$1,000.00	\$1,066.40	\$4.07
Institutional Class Hypothetical (5% return before expenses)	\$1,000.00	\$1,020.99	\$3.98

⁽¹⁾ Expenses are equal to the Fund’s annualized expense ratio for the most recent six-month period of 1.04% and 0.79% for the Investor Class and Institutional Class, respectively, multiplied by the average account value over the period, multiplied by 182/365 to reflect the one-half year period.

⁽²⁾ Based on the actual returns for the six-month period ended March 31, 2018 of 6.72% and 6.64% for the Investor Class and Institutional Class, respectively.

The Fund currently offers two classes of shares, the Investor Class and the Institutional Class. The inception date of the Investor Class was February 24, 2014. The Institutional Class began investing consistent with its investment objective on June 1, 2007. Each class of shares has identical rights and privileges except with respect to the distribution fees and voting rights on matters affecting a single share class. The Investor Class shares are subject to a 0.25% Rule 12b-1 distribution and servicing fee. The Fund may issue an unlimited number of shares of beneficial interest, with no par value.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in preparation of its financial statements. These policies are in conformity with generally accepted accounting principles in the United States of America (“GAAP”).

Security Valuation — All investments in securities are recorded at their estimated fair value, as described in Note 3.

Federal Income Taxes — The Fund complies with the requirements of subchapter M of the Internal Revenue Code of 1986, as amended, necessary to qualify as a regulated investment company and distributes substantially all net taxable investment income and net realized gains to shareholders in a manner which results in no tax cost to the Fund. Therefore, no federal income or excise tax provision is required. As of and during the period ended March 31, 2018, the Fund did not have any tax positions that did not meet the “more-likely-than-not” threshold of being sustained by the applicable tax authority. As of and during the period ended March 31, 2018, the Fund did not have liabilities for any unrecognized tax benefits. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits on uncertain tax positions as income tax expense in the Statement of Operations. As of and during the period ended March 31, 2018 the Fund did not incur any interest or penalties. The Fund is not subject to examination by U.S. tax authorities for tax years prior to the fiscal year ended September 30, 2014.

Security Transactions and Investment Income — The Fund follows industry practice and records security transactions on the trade date. Realized gains and losses on sales of securities are calculated on the basis of identified cost. Dividend income is recorded on the ex-dividend date and interest income and expense is recorded on an accrual basis. Withholding taxes on foreign dividends have been provided for in accordance with the Fund’s understanding of the applicable country’s tax rules and regulations.

The Fund distributes substantially all net investment income and net realized capital gains, if any, at least annually, typically during the month of December. The Fund may make additional distributions if deemed to be desirable any time during the year. Distributions to shareholders are recorded on the ex-dividend date. The treatment for financial reporting purposes of distributions made to shareholders during the year from net investment income and expense or net realized capital gains may differ from their ultimate treatment for federal income tax purposes. Where such differences are permanent in nature, GAAP requires that they be reclassified in the components of the net assets based on their ultimate characterization for federal income tax purposes. Any such reclassifications will have no effect on net assets, results of operations or net asset values per share of the Fund.

SMITH GROUP LARGE CAP CORE GROWTH FUND

NOTES TO THE FINANCIAL STATEMENTS (UNAUDITED) – CONTINUED MARCH 31, 2018

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Allocation of Income, Expenses and Gains/Losses — Income, expenses (other than those deemed attributable to a specific share class), and gains and losses of the Fund are allocated daily to each class of shares based upon the ratio of net assets represented by each class as a percentage of the net assets of the Fund. Expenses deemed directly attributable to a class of shares are recorded by the specific class. Most Fund expenses are allocated by class based on relative net assets. 12b-1 fees are expensed at 0.25% of average daily net assets of Investor Class shares (see Note 5). Expenses associated with a specific fund in the Trust are charged to that fund. Common Trust expenses are typically allocated evenly between the funds of the Trust, or by other equitable means.

3. SECURITIES VALUATION

The Fund has adopted authoritative fair value accounting standards which establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value, a discussion of changes in valuation techniques and related inputs during the period and expanded disclosure of valuation Levels for major security types. These inputs are summarized in the three broad Levels listed below:

Level 1 — Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

Level 2 — Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 — Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

Following is a description of the valuation techniques applied to the Fund's major categories of assets and liabilities measured at fair value on a recurring basis. The Fund's investments are carried at fair value.

Equity Securities — Securities that are primarily traded on a national securities exchange are valued at the last sale price on the exchange on which they are primarily traded on the day of valuation or, if there has been no sale on such day, at the mean between the bid and ask prices. Securities traded primarily in the Nasdaq Global Market System for which market quotations are readily available are valued using the Nasdaq Official Closing Price ("NOCP"). If the NOCP is not available, such securities are valued at the last sale price on the day of valuation, or if there has been no sale on such day, at the mean between the bid and ask prices. To the extent these securities are actively traded and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy. If the market for a particular security is not active, and the mean between bid and ask prices is used, these securities are categorized in Level 2 of the fair value hierarchy.

SMITH GROUP LARGE CAP CORE GROWTH FUND

NOTES TO THE FINANCIAL STATEMENTS (UNAUDITED) – CONTINUED MARCH 31, 2018

Short-Term Investments — Investments in other mutual funds, including money market funds, are valued at their net asset value per share. To the extent these securities are actively traded and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy.

Securities for which market quotations are not readily available, or if the closing price does not represent fair value, are valued following procedures approved by the Board of Trustees. These procedures consider many factors, including the type of security, size of holding, trading volume and news events. There can be no assurance that the Fund could obtain the fair value assigned to a security if they were to sell the security at approximately the time at which the Fund determines their net asset values per share. The Board of Trustees has established a Valuation Committee to administer, implement, and oversee the fair valuation process, and to make fair value decisions when necessary. The Board of Trustees regularly reviews reports that describe any fair value determinations and methods.

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of the inputs used to value the Fund's securities as of March 31, 2018:

	Level 1	Level 2	Level 3	Total
Common Stocks	\$43,948,966	\$ —	\$ —	\$43,948,966
Short-Term Investment	1,191,176	—	—	1,191,176
Total Investments in Securities	\$45,140,142	\$ —	\$ —	\$45,140,142

Transfers between Levels are recognized at the end of the reporting period. During the period ended March 31, 2018, the Fund recognized no transfers between any Levels. The Fund did not invest in any Level 3 investments during the year. Refer to the Schedule of Investments for further information on the industry classification of investments.

4. INVESTMENT ADVISORY FEE AND OTHER TRANSACTIONS WITH AFFILIATES

The Trust has an agreement with Smith Asset Management Group, L.P. (“the Adviser”) to furnish investment advisory services to the Fund. For its services, the Fund pays the Adviser a monthly management fee equal to 0.61% of the average daily net assets of the Fund.

The Fund's Adviser has contractually agreed to waive a portion or all of its management fees and reimburse the Fund for its expenses to ensure that total annual operating expenses (excluding acquired fund fees and expenses, brokerage commissions, interest, taxes, and extraordinary expenses) based upon the average daily net assets of the Fund do not exceed 1.04% and 0.79% of the Investor Class and Institutional Class, respectively.

SMITH GROUP LARGE CAP CORE GROWTH FUND

NOTES TO THE FINANCIAL STATEMENTS (UNAUDITED) – CONTINUED MARCH 31, 2018

Fees waived by the Adviser may be recouped by the Adviser for a period of thirty-six months following the month during which such waiver or reimbursement was made if such recoupment can be achieved without exceeding the expense limit in effect at the time the waiver and reimbursement occurred and at the time of recoupment. The Operating Expense Limitation Agreement for the Fund is indefinite, but cannot be terminated within a year after the effective date of the Fund's prospectus. After that date, the agreement may be terminated at any time upon 60 days' written notice by the Trust's Board of Trustees or the Adviser. During the period ended March 31, 2018, the Adviser did not recoup any of the previously waived fees. Waived fees subject to potential recovery by month of expiration are as follows:

<u>Expiration</u>	<u>Amount</u>
April 2018 — September 2018	\$ 77,587
October 2018 — September 2019	163,976
October 2019 — September 2020	178,118
October 2020 — March 2021	80,374

U.S. Bancorp Fund Services, LLC (“USBFS” or the “Administrator”) acts as the Fund's Administrator, Transfer Agent, and Fund Accountant. U.S. Bank N.A. (the “Custodian”) serves as the custodian to the Fund. The Custodian is an affiliate of the Administrator. The Administrator performs various administrative and accounting services for the Fund. The Administrator prepares various federal and state regulatory filings, reports and returns for the Fund; prepares reports and materials to be supplied to the Trustees; monitors the activities of the Fund's custodian; coordinates the payment of the Fund's expenses and reviews the Fund's expense accruals. The officers of the Trust, including the Chief Compliance Officer, are employees of the Administrator. A Trustee of the Trust is an officer of the Administrator. As compensation for its services, the Administrator is entitled to a monthly fee at an annual rate based upon the average daily net assets of the Fund, subject to annual minimums. Fees paid by the Fund for administration and accounting, transfer agency, custody and compliance services for the period ended March 31, 2018 are disclosed in the Statement of Operations.

Quasar Distributors, LLC (the “Distributor”) acts as the Fund's principal underwriter in a continuous public offering of the Fund's shares. The Distributor is an affiliate of the Administrator.

5. DISTRIBUTION COSTS

The Fund has adopted a Distribution Plan pursuant to Rule 12b-1 (the “Plan”) in the Investor Class only. The Plan permits the Fund to pay for distribution and related expenses at an annual rate of 0.25% of the Investor Class' average daily net assets. The expenses covered by the Plan may include the cost of preparing and distributing prospectuses and other sales material, advertising and public relations expenses, payments to financial intermediaries and compensation of personnel involved in selling shares of the Fund. For the period ended March 31, 2018, the Fund's Investor Class incurred expenses of \$759 pursuant to the Plan.

7. INVESTMENT TRANSACTIONS

The aggregate purchases and sales, excluding short-term investments, by the Fund for the period ended March 31, 2018, were as follows:

U.S. Government Securities		Other	
Purchases	Sales	Purchases	Sales
\$ —	\$ —	\$6,087,820	\$14,190,451

8. SECTOR RISK

As of March 31, 2018, the Fund had a significant portion of its assets invested in the Information Technology sector. Companies in this sector may be more sensitive to short product cycles, competition and aggressive pricing than the overall market.

9. FEDERAL TAX INFORMATION

The aggregate gross unrealized appreciation and depreciation of securities held by the Fund and the total cost of securities for federal income tax purposes at September 30, 2017, the Fund's most recently completed fiscal year end, were as follows:

Aggregate Gross Appreciation	Aggregate Gross Depreciation	Net Appreciation	Federal Income Tax Cost
\$8,125,315	\$(395,302)	\$7,730,013	\$41,894,114

The differences between book and tax-basis net unrealized appreciation (depreciation) is attributable primarily to the tax deferral of losses on wash sales on the Fund.

SMITH GROUP LARGE CAP CORE GROWTH FUND

NOTES TO THE FINANCIAL STATEMENTS (UNAUDITED) – CONTINUED MARCH 31, 2018

At September 30, 2017, components of accumulated earnings (deficit) on a tax-basis were as follows:

Undistributed Ordinary Income	Undistributed Long-Term Capital Gains	Other Accumulated Losses	Unrealized Appreciation	Total Accumulated Earnings
\$449,202	\$5,572,082	\$(5,895)	\$7,730,013	\$13,745,402

As of September 30, 2017, the Fund did not have any capital loss carryovers. A regulated investment company may elect for any taxable year to treat any portion of any qualified late year loss as arising on the first day of the next taxable year. Qualified late year losses are certain capital and ordinary losses which occur during the portion of the Fund's taxable year subsequent to October 31 and December 31, respectively. For the taxable year ended September 30, 2017, the Fund did not defer any qualified late year losses.

The tax character of distributions paid during the period ended March 31, 2018 was as follows:

Ordinary Income*	Long-Term Capital Gains	Total
\$552,472	\$5,796,776	\$6,349,248

The tax character of distributions paid during the year ended September 30, 2017 was as follows:

Ordinary Income*	Long-Term Capital Gains	Total
\$469,402	\$6,300,859	\$6,770,261

* For federal income tax purposes, distributions of short-term capital gains are treated as ordinary income distributions.

10. CONTROL OWNERSHIP

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a fund creates a presumption of control of the fund, under Section 2(a)(9) of the Investment Company Act of 1940. As of March 31, 2018, Charles Schwab & Co., Inc. and Morgan Stanley Smith Barney, LLC, for the benefit of their customers, owned 51.23% and 28.92%, respectively, of the outstanding shares of the Fund.

11. LINE OF CREDIT

The Fund has established an unsecured Line of Credit ("LOC") in the amount of \$5,000,000 or 33.33% of the fair value of the Fund's investments, whichever is less. The LOC matures unless renewed on July 26, 2018. This LOC is intended to provide short-term financing, if necessary, subject to certain restrictions and covenants in connection with shareholder redemptions. The LOC is with the Custodian. Interest is charged at the prime rate which was 4.75% as of March 31, 2018. The interest rate during the period was between 4.25%-4.75%. The Fund has authorized U.S. Bank N.A. to charge any of the Fund's accounts for missed payments. For the period ended March 31, 2018, the Fund did not have any borrowing under the LOC.

ADDITIONAL INFORMATION (UNAUDITED) MARCH 31, 2018

APPROVAL OF INVESTMENT ADVISORY AGREEMENT – Smith Asset Management Group, L.P.

At the regular meeting of the Board of Trustees of Managed Portfolio Series (“Trust”) on February 20-21, 2018, the Trust’s Board of Trustees (“Board”), including all of the Trustees who are not “interested persons” of the Trust, as that term is defined in Section 2(a)(19) of the Investment Company Act of 1940, as amended, (“Independent Trustees”) considered and approved the continuation of the Investment Advisory Agreement between the Trust and Smith Asset Management Group, L.P. (“Smith Group” or the “Adviser”) regarding the Smith Group Large Cap Core Growth Fund (the “Fund”) (the “Investment Advisory Agreement”) for another annual term.

Prior to the meeting and at a meeting held on January 9, 2018, the Trustees received and considered information from Smith Group and the Trust’s administrator designed to provide the Trustees with the information necessary to evaluate the continuance of the Investment Advisory Agreement (“Support Materials”). Before voting to approve the continuance of the Investment Advisory Agreement, the Trustees reviewed the Support Materials with Trust management and with counsel to the Independent Trustees, and received a memorandum from such counsel discussing the legal standards for the Trustees’ consideration of the renewal of the Investment Advisory Agreement. This information, together with the information provided to the Board throughout the course of the year, formed the primary (but not exclusive) basis for the Board’s determinations.

In determining whether to continue the Investment Advisory Agreement, the Trustees considered all factors they believed relevant, including the following: (1) the nature, extent, and quality of the services provided by Smith Group with respect to the Fund; (2) the Fund’s historical performance and the performance of other investment accounts managed by Smith Group; (3) the costs of the services provided by Smith Group and the profits realized by Smith Group from services rendered to the Fund; (4) comparative fee and expense data for the Fund and other investment companies with similar investment objectives; (5) the extent to which economies of scale may be realized as the Fund grows, and whether the advisory fee for the Fund reflects such economies of scale for the Fund’s benefit; and (6) other benefits to Smith Group resulting from its relationship with the Fund. In their deliberations, the Trustees weighed to varying degrees the importance of the information provided to them and did not identify any particular information that was all-important or controlling.

Based upon the information provided to the Board throughout the course of the year, including at an in-person presentation by representatives of Smith Group, and the Support Materials, the Board concluded that the overall arrangements between the Trust and Smith Group set forth in the Investment Advisory Agreement, as it relates to the Fund, continue to be fair and reasonable in light of the services that Smith Group performs, the investment advisory fees that the Fund pays, and such other matters as the Trustees considered relevant in the exercise of their reasonable business judgment. The material factors and conclusions that formed the basis of the Trustees’ determination to approve the continuation of the Investment Advisory Agreement as it relates to the Fund are summarized below.

Nature, Extent and Quality of Services Provided. The Trustees considered the scope of services that Smith Group provides under the Investment Advisory Agreement with respect to the Fund, noting that such services include, but are not limited to, the following: (1) investing the Fund’s assets consistent with the Fund’s investment objective and investment policies; (2) determining for the Fund the portfolio securities to be purchased, sold, or otherwise disposed of, and the timing of such transactions; (3) voting all proxies with respect to the Fund’s portfolio securities; (4) maintaining the required books and records for transactions that Smith Group effected on behalf of the Fund; (5) selecting broker-dealers to execute orders on behalf of the Fund; (6) monitoring and maintaining the Fund’s compliance with policies and procedures of the Trust and with applicable securities laws.

SMITH GROUP LARGE CAP CORE GROWTH FUND

ADDITIONAL INFORMATION (UNAUDITED) – CONTINUED MARCH 31, 2018

The Trustees considered Smith Group's strong capitalization and its assets under management. The Trustees then considered the investment philosophy of the Fund's portfolio managers and noted their significant investment management experience. The Trustees concluded that they are satisfied with the nature, extent and quality of services that Smith Group provides to the Fund under the Investment Advisory Agreement.

Fund Historical Performance and the Overall Performance of Smith Group. In assessing the quality of the portfolio management delivered by Smith Group, the Trustees reviewed the short-term and long-term performance of the Fund on both an absolute basis and in comparison to appropriate benchmark indices, the Fund's peer funds according to Morningstar classifications, and the Fund's composite of separate accounts that Smith Group manages utilizing similar investment strategies as that of the Fund. When comparing the Fund's performance against its Morningstar peer group, the Trustees took into account that the investment objective and strategies of the Fund, as well as the Fund's level of risk tolerance, may differ significantly from funds in the peer group. The Trustees noted that the Fund outperformed its peer group median and average over the year-to-date, one-year, three-year and five-year periods ended October 31, 2017, but underperformed the peer group median and average over the ten-year period ended October 31, 2017. The Trustees observed that the Fund had outperformed its benchmark S&P 500[®] Index over the year-to-date and one-year periods ended October 31, 2017, but underperformed the benchmark over the three-year, five-year and ten-year periods ended October 31, 2017. The Trustees also noted that the Fund had underperformed its secondary benchmark index, the Russell 1000[®] Growth Index over all measured periods. The Trustees then observed that the Fund's performance was generally consistent with the performance of its composite but that the Fund trailed the composite over the year-to-date period ended September 30, 2017, which Smith attributed to variance in sector weighting between the Fund and the composite.

Cost of Advisory Services and Profitability. The Trustees considered the advisory fee that the Fund pays to Smith Group under the Investment Advisory Agreement, as well as Smith Group's profitability from services that it rendered to the Fund during the 12 month period ended September 30, 2017. The Trustees also considered the effect of an expense limitation agreement on Smith Group's compensation and that Smith Group has contractually agreed to reduce its advisory fees and, if necessary, reimburse the Fund for operating expenses, as specified in the Fund's prospectus. The Trustees noted the management fees Smith Group charges to separately managed accounts with similar investment strategies and similar asset levels as the Fund are lower than the advisory fees that the Fund pays to Smith Group. They also noted, however, that Smith Group has additional responsibilities with respect to the Fund, including additional portfolio management and compliance obligations and the preparation of Board and shareholder materials, which justify the higher fees. The Trustees concluded that Smith Group's service relationship with respect to the Fund was not profitable.

Comparative Fee and Expense Data. The Trustees considered a comparative analysis of contractual expenses borne by the Fund and those of funds in the same Morningstar peer group. The Trustees noted that the Fund's management fee was lower than both the peer group median and average. After fee waivers and expense reimbursements of the Fund, the total expenses of the Fund's Institutional Class were lower than, and the Investor Class were higher than, the peer group median and average. The Trustees also considered the average net assets of funds comprising the benchmark category for the Fund were significantly higher than the assets of that Fund. The Trustees observed that when the benchmark category was limited to funds that had similar assets to the Fund, the total expenses of both the Institutional Class and Investor Class were lower than the peer group average. While recognizing that it is difficult to compare advisory fees because the scope of advisory services provided may vary from one investment adviser to another, the Trustees concluded that Smith Group's advisory fees with respect to the Fund continue to be reasonable.

SMITH GROUP LARGE CAP CORE GROWTH FUND

ADDITIONAL INFORMATION (UNAUDITED) – CONTINUED MARCH 31, 2018

Economies of Scale. The Trustees considered whether the Fund may benefit from any economies of scale, noting that the investment advisory fee for the Fund does not contain breakpoints. The Trustees noted given current asset levels, it was not necessary to consider the implementation of fee breakpoints at the present time, but agreed to revisit the issue in the future as circumstances change and asset levels increase. The Trustees also considered Smith Group's commitment to consider breakpoints in the future in response to asset growth.

Other Benefits. The Trustees considered the direct and indirect benefits that could be realized by the Adviser from its relationship with the Fund. The Trustees considered the extent to which Smith Group utilizes soft dollar arrangements with respect to portfolio transactions, and considered that Smith Group does not use affiliated brokers to execute the Fund's portfolio transactions. While the Trustees noted Rule 12b-1 fees may be paid for shareholder and distribution services performed on behalf of the Fund, the Trustees also observed that the distribution expenses that Smith Group incurred significantly exceed any Rule 12b-1 payments from the Fund. The Trustees considered that Smith Group may receive some form of reputational benefit from services rendered to the Fund, but that such benefits are immaterial and cannot otherwise be quantified. The Trustees concluded that Smith Group does not receive additional material benefits from its relationship with the Fund.
